converting machines

Double Unwinder
with accumulator
DAW-S

Roll diameter
max. 1200 mm

Working width
400 - 2000 mm

Production speed
2 - 90 m/min

Material thickness
30 - 1000 µm

Application

Especially suited for unwinding film, paper, laminates, non-woven and spun-ray-on fabric in continuous operation at low to medium speeds.

Advantages

- ▶ linear accumulator with smooth running rollers
- ▶ high quality splicing by rotary joining of both webs
- ▶ optimum material saving by optional automatic splice system
- ▶ easy handling
- ▶ use of high value products from well-known manufacturers
- ▶ minor maintenance required
