Short Roll Turret Winder

DWW

Profimat

Diameter of finished roll
50 - 1200 mm

Working width
500 - 3000 mm

Production speed
10 - 600 m/min

Material thickness
8 - 250 µm; 1 - 4 layer
(depending on material)

Application

For web made of film, paper, laminates, fibre glass and adhesive- / self adhesive films.

Advantages

- ▶ high winding performance with outstanding quality and easy handling
- ▶ processing of tension sensitive materials
- ▶ reliable in-line production, e.g. in blown film lines
- ▶ processing of thin wall sleeves also core-less
- ▶ short roll change time by fully automatic, simultaneous operation at three positions
- ▶ reduction of auxiliary material costs acc. web- or core preparation for lot of materials not necessary
- ▶ individually cross cutting system (serrated-, crush or scissor cut)
- ▶ Lowest set-up work during machine change over

Functional Highlights

- ▶ mechanical adjustments with position indication for easy repeat setup
- ▶ compact and modular construction
- ▶ high operator protection by functional safety devices
- ▶ further automatable e.g. with subsequent packaging machine
- ▶ integrated switch cabinet (as "hooked machine")
- ▶ use of high quality products from established manufacturers
- ▶ low-maintenance design
- ▶ excellent price/performance ratio

Options

- ▶ core stacker for single or multi core running
- ▶ automatic roll end / flap fixing by adhesive tape
- ▶ creation of starter tab for multi running short roll production of adhesive materials
- ▶ inline packing of finish rolls

We look forward to your enquiry and will be happy to submit an individual offer for your specific technical application.
