Double Turret Unwinder ZWA

Roll diameter
max. 1250 mm

Working width
600 - 2200 mm

Production speed
2- 200 m/min
(optional up to 500 m/min)

Material thickness
20 - 100 µm

Application

Ideally suited for continuous feeding to coating units with backing material made of plastic film, non-woven and /or spun rayon fabric.

Advantages

- ▶ extremely robust, bottom-of-the-line construction with lowest wear
- ▶ very compact design, ideally suited for retrofit of existing plants
- ▶ reliable automatic splice process
- ▶ high splice quality with very short splice flaps
- ▶ optional in addition with seal-splice feature for low waste
- ▶ very easy ergonomic operation
- ▶ smooth web tension system with integrated web accumulator
- ▶ energy saving drive concept with optimum layout of the drives

Functional Highlights

- ▶ coherent, ergonomic safety concept
- ▶ integrated switch cabinet (as "hooked machine")
- ▶ minor maintenance required
- ▶ excellent cost/performance ratio

Options

- ▶ automatic seal-splice device
- ▶ rail mounted roll feeding trolley with semi-automatic functions for positioning to the required feeding height, independent of roll diameter- as well as positioning of the roll in axial direction. Positions to be set at operator panel
- ▶ additional draw with accumulator for low web tension
- ▶ large accumulator with carbon fiber rolls for fast change-over time
